

Show me where you hide

Germaine Shames
Philippe Perelman

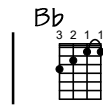

Tempo = 100

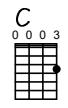

1a
Sometimes

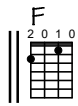

what you long to hold

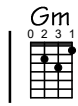

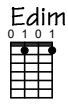

Is what you need

what you need the least

5a
Wild and clawed

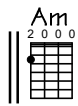

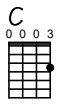

and closing in

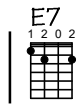

It mauls you

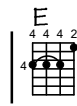

mauls you like a beast Love and

9b
love and love some

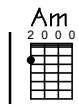

more

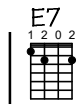

'Til nothing's left in

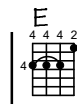

side. Leave your

prayers under the

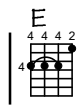

door

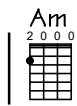

Show me where you

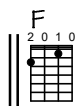

hide

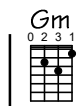

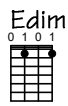

Show me where you

hide

20a
Sometimes

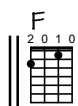

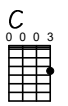

what you dream about

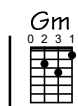

Is what you need

what you need to lose

24a
Deep and dark

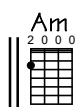

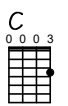

and murmuring

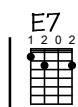

It sinks you

sinks you in the blues Love and

28b
love and love some

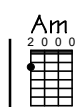

more

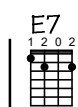

'Til you're pillaged

blind Leave your

heart upon my
2022 Lucy, Racquel and me

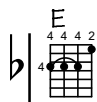

wall

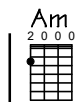

Show me where you

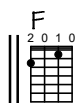

hide

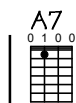

Show me where you

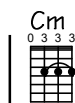

hide Like a

38a shadow You're here to

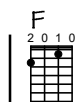

stay, like an

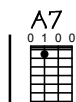

echo you like to

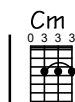

play. And

love's the game whose

rules whose

rules you toss a

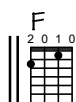

side

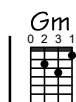

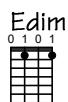

aside

Hide

49a I knew you

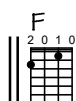

in the Stone Age

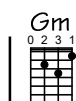

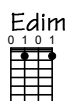

I knew you

Trapped within your cave

53a I knew you

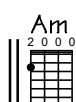

once in Paris

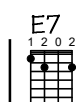

Risen

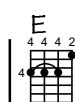

Risen from the grave Love and

57b love and love some

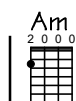

more

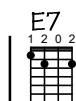

I've tried to make you

mine Leave your

prayers under the

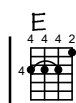

door

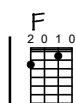

show me where you

hide

show me where you

hide

show me where you

hide
